

Resources from Rik Hoever for Integral Leadership for Sustainable Evolution Seminar 4-9 August 2009

RIK's own website on SACRED GEOMETRY

Much in Dutch, but all the pictures and videos speak for themselves (will translate into English in the future)

ZERO-POINT ENERGY (OVERUNITY)

There's a lot of resources and movies to be found on the internet, any of which may or may not be fake. I'm personally very impressed by this movie of a device on a glass table putting out more energy than any battery can supply:

<http://video.google.com/videoplay?docid=167210479374903373>

http://peswiki.com/index.php/Directory:Steve_Marks_Toroid_Generator

Another overunity technology based on water can be found here:
